

## **D) REMARKS**

### **Drawings**

The drawings stand objected to on the grounds that they fail to include reference numbers 165 and 168.

Reference numeral 168 is shown in Fig. 1, towards the bottom of the showerhead, to the left of the "F" in Fig. 1.

Reference to reference numeral 165 on page 8, line 20 and page 8, line 22 should refer to reference numeral 125, which is the flow chamber. A replacement paragraph has been submitted showing the changes.

The remaining references to numeral 165 at page 10, line 17, page 10, line 20, page 11, line 1, page 12, line 10, page 13, line 11 properly refer to the second flange which is identified on Figs. 4 and 5.

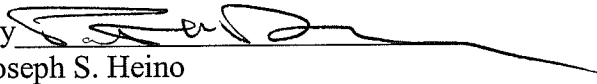

### **35 U.S.C. § 112**

Claims 17, 26 and 28 stand rejected under 35 U.S.C. § 112, second paragraph as being indefinite for failing to point out and distinctly claim the subject matter regarded as the invention.

Claim 17 has been amended to delete the limitation "a conduit attachment," which was introduced in the Preamble to the claim.

The foregoing response is intended to address each of the formalities identified by the Examiner and is believed to place the application in position for allowance. Allowance of all claims as now presented is respectfully requested.

Respectfully submitted,  
John Mueller, Applicant
